

# Photo Workflow

Having resubscribed to Flickr Pro, I need to figure out some workflow with my photos to avoid duplication, but ensure backup.

## Key Tools

### Input

- iOS devices
- Nikon dSLR
- Panasonic Lumix

### Processing

- Apple Photos
- Lightroom Classic CC
- Lightroom CC

### Cloud Storage

- iCloud Photo Library
- Google Photos
- Adobe Creative Cloud
- Flickr
- Backblaze

### Local Storage

- Local NAS

## Current Workflow

- iOS photos > iCloud Photo Library > Google Photos > Backblaze
- Nikon & Lumix > Lightroom Classic > NAS > Backblaze > Selects to Flickr > Selects to iCloud Photo Library > Selects to Google Photos
