

Process Tools

[Rishabh Dassani](#) has a great post highlighting the difference between *content tools* and *process tools*.

Using his definitions, I've started to construct a list of my particular process tools, across the two computing platforms I use the most.

The key gap is to find an incubation tool on iOS. While TheBrain has an iOS component, it is not very good.

Category	Platform	Application
Calendar	macOS	BusyCal
	iOS	Fantastical
List Manager	macOS	OmniFocus
		iThoughts
	iOS	OmniFocus
		iThoughts
Collection Tools		Due
	macOS	DEVONthink
		Instapaper
	iOS	DEVONthink to Go
		Instapaper
Reference Tools		Pocket
	macOS	DEVONthink
		OneDrive
		Dropbox
	iOS	DEVONthink to Go
Ideation Tools		Files.app
	macOS	iThoughts
		Curio
		TheBrain
		OmniOutliner
Incubation Tools	iOS	iThoughts
		OmniOutliner
	macOS	TheBrain
		DokuWiki
	iOS	???
